

## PARENTS – help us to help your child

With Year 11's now working on their final exam question it is vital that they put in the extra hours on their coursework. Ms Dillon in the Art department has opened the art room at lunch time and after-school and will be on hand to help them with their work. Providing our pupils with extra time to work on their coursework will improve their outcomes immensely.

Parents please encourage your child to attend at least 1 intervention a week. They will be able to work independently with assistance on hand in a relaxed environment. Let's work together and encourage them to attend. Look at the timetable of 'Open access to the Art room and discuss with your child what session (or sessions) they would like to attend. Then they just have to turn up. No booking.
